## **COGAN'S NEW GALVANIZED ALL-STEEL ECONO-FENCE**

---

When it comes to manufacturing quality wire and metal products at affordable prices, no one can beat Cogan, and our latest product is no exception. Cogan's patent pending Econo-Fence is the durable, practical and multi-purpose solution for converting under-utilized space into a secure storage area. Made for simple and fast assembly, Cogan's Econo-Fence is in stock and ready to deliver, meeting the needs of your business with ease and efficiency.

Ideal for industrial or residential applications – from warehouses to condominiums – our Econo-Fence boasts thick, heavy-duty 6 and 8 gauge welded mesh panels that don't require angle frame. This design innovation allows for any necessary trimming around water pipes, wall irregularities or obstructions to be done right on-site and with its fewer components, Cogan Econo-Fence installs faster than any other system on the market. Available in a freestanding or floor-to-ceiling post design, Econo-Fence is engineered strong for top-notch support and rigidity.

The galvanized components are corrosion resistant for long-lasting, maintenance-free protection. Choose from three standard panel sizes, 3' x 8', 4' x 8' and 5' x 8' to create a completely custom design for your Econo-Fence layout. Our open, wire mesh design ensures all safeguarded property is in constant view, while allowing air to circulate and light to penetrate fully. Cogan Econo-Fence is built for maximum protection, while remaining adaptable to your growing needs and environment.

When compared to dry wall, wood and other wire products, our Econo-Fence provides more of everything you need – a clean, attractive design, simple assembly, adaptability and affordability, making it the perfect storage solution for you application. It's also another example of our ongoing commitment to provide streamlined service and outstanding customer value – Faster, Leaner, Better – today and every day.
